

Selection Criteria for Veteran World Championships – 2017

For this year's World Championships the Selectors will, in the first instance, be looking at automatic selection from the two selection competitions. Should some fencers finish within the top two places in both competitions, and/or if one, or more, of the automatic qualifiers are unable or unwilling to compete at the Worlds then the Selectors will award the remaining place or places according to results obtained in the two qualifying competitions, subject to the discretion to consider any other material and relevant factors.

There is a general presumption that, all things being equal, third placed finishers in the two selection competitions (and their respective seedings before DE) will have precedence in selection of remaining places.

However individual circumstances, such as previous experience/results, inability to attend the selection competitions, and current form may also influence the decision of the Selectors.

In the event of a fencer being unable to compete in either selection competition but wishing to be considered for a discretionary place, the Chairman of Selectors must be notified of this, in writing, prior to the end of the second selection competition. (mail: carlbevmorris@gmail.com)
